To Whom It May Concern:

This letter is written on behalf of Nutrition One, LLC to reflect the quality of this company and professionalism of their staff. We started working with Nutrition One in 2014 after spending three consecutive and frustrating years working with different Catering Companies. Prior to working with Nutrition One, we struggled to provide quality food to our students, workers that would show up on time for lunch service, and even had a company declare bankruptcy halfway through our school year.

Nutrition One not only contracted with us during the 2014-15 school year, but also took on the huge responsibility of having to go through an NSLP Administrative Review with us during our first contract year together. The company never hesitate in agreeing to work with us and assured us that we would not have the same issues with them that we had with prior companies. Their can-do attitude and willingness of this company to jump in and do whatever is possible to make sure that students are not only eating but enjoying the food, has been a breath of fresh air for us. Needless to say it is now four years later, we are still partnering with Nutrition One, they have proven to be a company unlike those we had experienced prior to working with them, and they have successfully navigated us through a second National School Lunch Program (NSLP) and School Breakfast Program (SBP) Administrative Review.

As a result, I consider it a privilege and an honor to draft this letter on behalf of Nutrition One, LLC. and all of the employees within the company, as they have been a huge part of our organization the past four years. It is with great enthusiasm that I give this company my highest recommendation for any potential schools interested in pursuing their services. If I can be of any further assistance, please do not hesitate to call.

With gratitude and appreciation,

Casey Weiss
Principal
